

## Children of J. Johnstone (or Johnson)

**Rushworth Chronicle**

**23 July, 1897**

Dr Christie requests us to state that the children of Mr J. Johnstone, who resides at Moora South, did not die from diphtheria. One died from an attack of marasmus and the other from convulsions.

*Rushworth cemetery records have two Johnsons (not Johnstones) buried in the same grave. There is a James Johnson also listed, same religious section, different grave.*

*Either the newspaper spelling or the cemetery spelling may be incorrect.*
