

Daughter of William Nash

Murchison Advertiser

17 November, 1916

The family of Mr Wm. Nash, of Stanhope road, Rushworth, are no doubt having a bad time lately.

Less than a fortnight ago the little boy, two and a half years old, died somewhat suddenly, and now the second misfortune has befallen them, a little girl of four and a half years having expired on Saturday morning from that dreaded complaint, diphtheria.

Two other members of the family are suffering from the same complaint, but we are pleased to say they are now recovering.

The remains of deceased were interred in the local cemetery on Sunday afternoon.
